Chapter 1

Introduction

This book is made based on the *7th Sea Core Rulebook: 2nd Edition*, and is mainly meant as something for putting content that I am wanting to run together.

That said, this may become something that parts or the entirety of it will get in the hands of my players, or people who find it some other way. I may at some point decide to publish it.

As I am writing this very brief introduction I have something written about Characters, specifically the start of a single Character. I don't really know where it will go beyond that.

1.1 Characters

"Step ..."

This is where the characters I create will go. Some of these may be characters which I'm creating for myself, and some may have been just created for fun, and some might even be created for a specific player.

There is also room for additional notes.

1.1.2 References

1.1.1 ???? Träge

This is the first character I am creating, and as of now it has a good amount about actually creating the character in the sections labeled

This contains some information which may (not yet), apply to multiple characters. It also might be something which ends up getting referred to in multiple places for a single character.

1.2 Appendix

This is where my notes about the process of this goes, as well as possibly some stuff which might make it easier to find your (my) way through this. Each chapter will have a separate appendix, in part just for making it easier to edit.

This also is including stuff about the whole process of making the book itself.

1.2.1 Introduction — Notes

This is content about what I've put in the introduction section (the one

you're reading).

1.2.2 Characters — Notes

This is notes on the character section. It's more of the technical stuff than what would go here.

1.2.3 Appendix — Notes

This is notes more about the whole overall process, and stuff that has gone on with the appendix itself.

Chapter 2

This chapter has each of the characters which we have built, along with the various references to those specific characters.

Legendary Trait:

4 Point

Choose a Trait. Whenever you roll a Risk using that Trait, you remove one die from your pool before you roll. That die is always considered to roll a 10. If your 10s explode, your free Legendary Trait 10 explodes as well.

Table 2.9: Legendary Trait

Survivalist:

1 Point

If you are in the wilderness, you can forage or hunt and find enough food for yourself and up to five other people. Under extreme circumstances—lost in the middle of a desert or abandoned in the Ussuran tundra, for example—you find enough food for yourself and up to two other people.

Table 2.10: Survivalist

5.

What is your Hero's greatest strength?

What is your Hero's greatest weakness?

- Knows who is in the wrong when power is being abused.
- Often can't decide when it is less clear what power dynamics are in play.
- Often does not know actions to take when power dynamics are in play, even when they can tell who is in the wrong.

6. What are your Hero's most and least favourite things?

- Loves: A cup of hot infused herbs with two slices of bread.

- Hates: Mud, mud, mud and more mud. Not hates hates, but long wet muddy seasons lesson enjoyment of life.

7. What about your Hero's psychology?

Likes to think before acting. Does not like to rush in without decent knowledge, but is aware that planing can get in the way of acting.

Always likes to take a break before deciding on some unexpected thing.

Likes planning the day, and reviewing the day at the beginning of and end of the day.

Sorcery:

2 Point

You gain the Sorcery from your National bloodline. If you purchase this advantage after Hero Creation, you may only do so with a Hero Story.

There are cases where this may occur twice. Please see *7th Sea Core Rulebook Second Edition*.

Table 2.11: Sorcery

Cast Iron Stomach:

1 Point

Spoiled or raw food never negatively affects you, and you still gain required sustenance from it.

Table 2.12: Cast Iron Stomach

8. What is your Hero's single greatest fear?

That Eisen will not recover from the War of the Cross, and that the Horrors and the internal conflict, if not resolved will lead to further deterioration of the conditions in Eisen.

9. What are your Hero's greatest ambitions?

What are her loves?

Dedicated to forming unity in conflicts rather than finding who is right or wrong.

10. What is your Hero's opinion of his country?

It was beautiful, fertile, and wonderful. The War and Horrors have split it's people and destroyed it's lands. The country can be brought to gory

again, if they can find a way to bring themselves back together.

She never gives up hope of a return to glory. Perhaps a different glory but a glory none the less.

11. Does your Hero have any prejudices?

She does not hate any group, but she gets very frustrated with those who refuse to work with others, and some guilt by association can occur when others support those who won't work with others.

Aristocrats and Vaticine are always viewed with suspicion until they prove their willingness to work with others.

12. Where do your Hero's loyalties lie?

Loyalty lies in finding unity. Unity is a grand goal for her.

13. Is your Hero in love? Is she married or betrothed?

She has yet to find the love of her life and is not sure she will.

She is not jaded thinking it impossible, but feels it largely irrelevant.

14. What about your Hero's family?

Family Name:

- * Träge — Freiburg
- * Wirsche — Wirsche
- Pösen — Pösen
- * Heilgrund — Heilgrund
- Fischler — Fischler
- Sieger — Sieger
- Heinzle — Heinzle

Was born in Wirsche, and has the family name of Träge. Lives in Heilgrund.

15. How would your Hero's parent's describe them?

The Hero's parents are proud of her, and feel that she honours them. They hope that she will return when she has found the end to her questing.

Her father hopes that she will bring unity to Eisen.

Her mother hopes that she will return to the farm, and grow the family.

16. Is your Hero a gentle?

???? is sort of, but feels that rank is meaningless, and wealth is meaningless. She believes that values comes from deeds.

???? honours all until they prove unworthy, though is suspicious of the aristocrats and the Vaticine.

???? is distrustful of those who hold power.

17. How religious is your Hero? What sect of the Church does she follow?

Technically an objectionist and believe is freedom of religion, but feels most of the religious debate is utter bonkers, and may say so from time to time.

18. Is your hero a member of a guild, gentle's club, or secret society?

???? tends to sit on the outside of formal society, and is not a member of any of these.

19. What does your Hero think of Sorcery?

Sorcery is a very powerful and useful tool which has a high chance of becoming corrupted power.

20. If you could, what advice would you give your Hero?

Learn to lay back and enjoy life, and grab those things which have meaning, and don't get caught up in the little things where people are just confusing.

2.2.2 Step 1. Traits

Each trait has 2 points initially with 2 additional points to assign.

These are reflected above.

2.2.3 Step 2. Nation Bonus

Each nation has a bonus to 2 different traits.

These are reflected above in the Traits.

2.2.4 Step 3. Backgrounds

Backgrounds help to determine the role of a character. These represent

your Hero's past. They can include, restrictions, quirks, advantages, and skills.

You pick two different backgrounds.

I picked the Farmkid background (Table: 2.13 Page: 18) from the general backgrounds, and the Hexe background (Table: 2.14 Page: 18) from the Eisen backgrounds.

2.2.5 Step 4. Skills

Skills have 10 points to add after having skills from Backgrounds. You gain all the skills from your backgrounds. Duplicate skills add an additional point to the skill.

2.3 Additional Notes (???? Träge)

There is no real content here.

Appendix A

Introduction — Notes

A.1 2023-10-06

Created the Introduction chapter. This was already starting to look like I was going to need an introduction before too long, so there is a brief introduction and some about each of the parts that we have there.

It will likely need to be expanded and made more a way to get a fairly quick idea as to where something might be. All of this will take time.

Appendix B

Characters — Notes

B.1 2023-10-06

Created This... Already had a good portion of the chapter written.

The first character was getting close to having been created, and that was working well, but I can't work on it further at this time, but wanted to put some info here to make the whole document work a little better.

At this point I need to do more away from the computer to get an idea of the next steps for the character creation. It looks to be at the Step 4. Skills section.

B.1.1 Further Work

A lot of what has been done is moving toward better formatting. I took a break because I wanted to take a look away from the computer at the Step 5. Advantages part of character creation.

I did move beyond that, but it's not reflected here yet. I also want to have the character sheet info, and the character building info.

Just did some minor changes to make it less a massive wall of Character Sheet, followed by Character Creation, followed by Character Notes. Those are different sections now.

Appendix C

Appendix — Notes

C.1 2023 October 6

Created the Appendix it includes:

- Introduction — Notes
- Characters — Notes
- Appendix — Notes

It probably will have an index at some point, but currently we don't have a way that we want to note things in the index, or even much of an idea of how to we would even index things.

I feel that I'll for now put some technical stuff about the whole thing in this index.

C.1.1 Arrangement of Chapters

Currently we have Introduction and Characters, then the Appendix in the same order. But that might not continue as such. Moving stuff around probably will need to be noted here.

As it currently stands the "Hero" or Character chapter is really hard to find stuff in the file as it's 500 lines long, and it just takes a while to scroll through it.

C.1.2 Line lengths

Also, these long lines... Or what are paragraphs as a single line in the file, need to go as I come across them. It would be nice if it actually did it automatically. As this file currently is, it is 23 lines long, but it has multiple longer paragraphs formatted that way.

After adding new lines, I end up with ... 35 lines. That's a more realistic way to look at it. Also, it can help with finding where more specific errors are, as the long lines will be more listed as a single line, but the shorter lines can be each listed.

The problem I've run into is reformatting when I end up changing a line in the middle of a paragraph. All of that can be handled on an as needed basis though.

C.1.3 Makefile

This isn't so much the book itself, but it is kind of important. I have a Makefile created which hopefully allows the creation of the book at least for display purposes. I *think* the reason that the table of contents wasn't correct, is because it needs to run through twice, or at least it *might* need to run through twice, to have the updates in the table of contents (and index I think).

C.1.4 Closing Thoughts

Most of what I have done in terms of this has been to just finish with notes on the changes for the day in the other sections of the appendix. I know that I have some notes here that should be dealt with better. I'll get to them. I promise...

C.2 2023 October 7

Mostly not doing much of anything today, but I decided to throw here a little playing with the L^AT_EX and a more "authentic" version...

L^AT_EX
Λ^αT_εX

These are just silly playing, but I feel they are worth keeping here for now.
